

Window flange FO Series

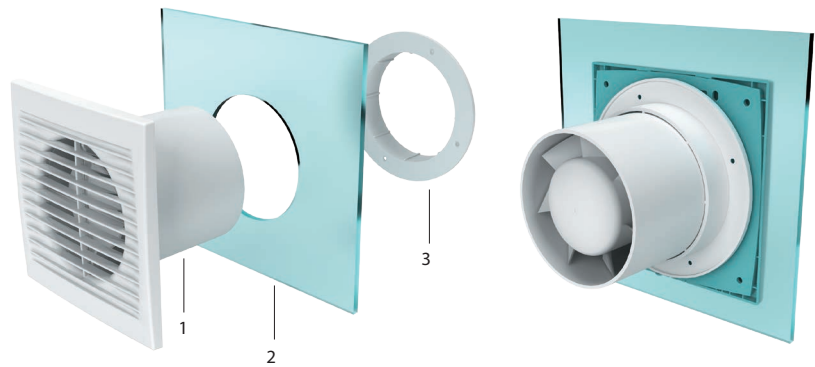

Application

- The window flange is designed for mounting of the fans in the window single-thickness sheet glass, 3-4 mm thick.
- Connecting diameters: 100, 125 and 150 mm.

Mounting

- Fan installation in the window sheet glass.

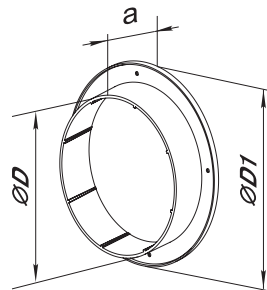

- Connection to the fan spigot by means of mounting ribs provides reliable fixation of the fan.
- Applicable for all VENTS fans except for VKO, VKO1, iFan, Quiet, MAO, CF.

1. Fan.
2. Single window glass.
3. Window flange.
