

Series **Enave P**

Heat recovery air handling unit in sound- and heat-insulated casing made of expanded polypropylene

- Heat exchanger type: Counter flow
- Sound insulation
- Motor type: EC
- Bypass: Manual
- Reheater: Optional
- Preheater: Optional
- BMS protocol: ModBus
- Control: Wired control panel
- Casing material: EPP
- Humidity sensor: Optional
- Enthalpy heat exchanger

| Lineup | Connected air duct size, mm | Rated power, W | Maximum airflow, m ³ /h | Control system | Reheater | Preheater | BMS protocol |
