

DKM series

Access doors on a metal frame recessed for ceramic tiles

Application

- Designed for wall installation and ceramic tile attachment.
- Enable quick and convenient access to concealed equipment and utility lines.
- Concealed mounting for esthetic appearance.
- Suitable for use in humid indoor spaces.
- Protected by national patents worldwide.

Design

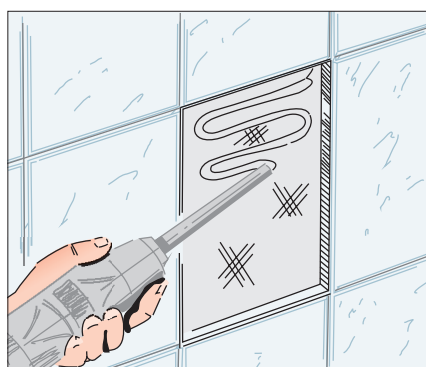

- The metal frame contains magnets for plate attachment and hides the tile-to-tile gap.

- Metal plate for attaching ceramic tiles.
- Magnetic attachment of plate to the frame.
- Press gently to open and close or use a cup plunger.
- A wide range of sizes.

Mounting

- Easy installation using mounting foam or mortar.
- Height-adjustable magnets enable perfect leveling of tiles to the wall surface.
- Ceramic tiles are easily glued to the plate.
- Easy servicing.

Sample Installations
